

Spare electrodes for splicing machines

On demand

Manufacturer: Fujikura

Gross (weight): 0.005 kg

:

Description:

Electrodes are one of the most wearing and vulnerable parts in splicing machine. Being exposed to action of electric arc during operation, the electrodes are subject to gradual wear-out, thus demanding replacement in the course of time. We offer electrodes for the following splicing machines:

Fujikura:

Electrode model	Splicing machine
ELCT2-12	SpliceMate(FSM-11R)
ELCT2-16	FSM-30R, FSM-16S, FSM-16R
ELCT2-17	FSM-15S, FSM-15R
ELCT2-20A	FSM-60S, FSM-60R, FSM-18S, FSM-18R, FSM-50S, FSM-50R, FSM-17S, FSM-17S-FH, FSM-17R
ELCT1-25	FSM-45PM, FSM-45F, FSM-40PM, FSM-40F, FSM-40S, FSM-30S, FSM-20PMII, FSM-20PM, FSM-20CSII, FSM-20CS, FSM-20C
ELCT2-25	FSM-45PM-LDF, FSM-45F-LDF, FSM-20RS

Coringer: Coringer AFS-40, Coringer AFS-48, Coringer AFS-50

INNO Instrument: INNO Instrument IFS-9

ILSINTECH: ILSINTECH Keyman S1

Note: *the electrodes are supplied as a set of 2 pieces.*
